This is, we believe, the first instance where such med cines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all othor medicines of the present day.

The extreme cold weather and the absence of a part of our usual help will we trust, be a sufficient excuse for the inaccuracies of this week's issue.

At the suggestion of one of the following gentlemen, the poor colored widows and orphans of Marys ville and vicinity have been kindly cared for this week. Any one therefore applying to Mr. W. A. Walker may receive some help, and when the funds have been disposed of we shall be glad to publish any further donations, and the names of the contributors. This is a worthy object and we hope it will induce other persons to contribute:

SPECIAL MENTION.

It is with more than ordinary interest that we invite the attention of our friends to the "GREAT HENDER-SON CO. KY. SCHEME," which we give a prominent position in our colums to-day. This is not one of the petty "gift" or lottery" affairs which dishonest rascals so often attempt to palm off upon unsuspecting people, but a straight-forward and legitimate enterprise, with a regular charter from Legislature of Kentucky, and the full approval of all prominent officials and leading citizens in the State. We do not believe, that any one so inclined, will ever have a more favorable opertunity to invest five dollars more satisfactory in this Scheme. For any our friends who may desire it, we will take pleasure may desire it, we will take pleasure the short of Depot to the short of Depo in procuring ticots. We have already bought several ourselves.

He is subject to fits of irritation, sullenness, or despair, as the case may be. A preternatural sensitiveness which he cannot control leads him to mi-construe the words and acts of those around him, and his intercourse even with those nearest and dearest to him a not unfrequently marked by exhibition of testiness foreign to his real nature. The se are the mental phenomena of the disease, for which the invalid cannot be justly held reap insible, but they occasion much household discomfort. It is essential to family harmony as well as to the rescue of the principar sufferer from a state not far removed from incipient insunity, that those symptoms of mental disturbance be promptly removed. This can only be done by removing their physical cause, a derangement of the functions of the stomach and its slided vicers, the liver and the bowels.
